

**ESCO Maritime Solutions
MEASUREMENT SYSTEMS INC.
DNE TECHNOLOGIES INC.**

SUPPLIER QUALITY MANUAL ACKNOWLEDGEMENT

INTRODUCTION:

ESCO Maritime - Measurement Systems Inc. (MSI) and DNE Technologies Inc. (DNE) develops, designs, produces and services Human Machine Interface (HMI) and Human Systems Interfaces (HSI) products for Military and Commercial Applications. We take great pride in our commitment to excellence in quality products and service to all of our customers. In the rapidly changing technology of today's environment, MSI and DNE is constantly facing new opportunities. Today's customers not only expect, but demand high quality, high reliability and on-time deliveries.

ESCO Maritime – MSI and DNE recognizes the importance of a strong Supply Chain to provide customers with quality products, delivered on time and at a competitive price. Continuous improvements must be implemented year after year to remain ahead of the competition and achieve the desired growth expectations. Improvements within ESCO Maritime - MSI/DNE and our Supply Base can only be achieved with clear and concise communication throughout the business process.

Please read and understand the ESCO Maritime - MSI and DNE Supplier Manual that has been designed to explain the quality assurance and purchase order requirements, required by our customers, which must be flowed down throughout the Supply Base. The execution of these requirements is critical to insure the end customer receives the product and all associated documentation and certification to their specifications.

ESCO Maritime - MSI and DNE looks forward to sharing the future growth expectations and the successes with our Supply Base. If you have any questions or comments, please contact me or anyone from the ESCO Maritime - MSI and DNE team.

Thank you,

Peter A. Crawford

President
